THE H. C. MURRAY CO.

PRIVATE FIRM'S ICE-USED.

Tank of Public Fountain Filled, Although City Has 8,000 Tons to Call On-Orders from Alderman Gellass.

It looks as though there is going to a breach between Mayer Daniel P. unn and the water committee of the ty over the municipal ice situation, he mayor is in no happy frame of The mayor is in no happy frame of mind at present over the way things have turned out relative to the city ice and his patience was taxed to the utmost Friday merning when he found that the firm of Girouard & Bonin was supplying ice to the city for the drinking fountain at the corner of Main and Railroad streets, when the city has got over \$,000 tons of ice of its own. Mayor Dunn had considerable of an argument with Mr. Girouard over filling the vauit of the drinking fountain with ice, saying that Arthur Lee, who was buying and peddling city ice, would look out for the vauit. Mr. Girouard told the mayor that he was acting unlook out for the vault. Mr. Ground told the mayor that he was acting under instructions of Alderman A. L. Gelfnas of the water committee and would continue to furnish ice to the city until his orders were rescinded by Alderman Gelfnas.

Iderman Gelinas.

The municipal ice situation in Williams the situatio mantic is rather peculiar and those who have advocated municipal ice and who have advocated municipal ice and been enthusiastic over the success attained by the venture, up to the present situation, are beginning to grow suspicious. If there is any concealed attempt in the present situation to kill municipal ice, there will be some lively doings before long. Municipal ice was inaugurated in Willimantic after people had been paying what they considered exorbitant prices for ice because they were at the mercy of two ice dealers, and it was a case of pay or go without. Ever since the of pay or go without. Ever since the city has been harvesting ice that ice has been retailed to families for 30 cents a hundred. Any attempt to kill municipal ice will strike the people in general, and they will resent any such action. Mayor Daniel P. Dunn, the father of municipal ice in Willimantic father of municipal ice in Willimantic is watching every move in the present situation and when the opportunity presents itself he will be heard from. He has stated that as long as he was mayor of the city no attempt would be allowed to be carried to a success in the elimination of municipal ice. It the elimination of municipal ice. It had proved a benefit to the community, individuals and as a whole, and his energies would be devoted to safe-guarding the interests of the people. Why the city should buy ice from Girouard & Bonin when it has over \$,000 tons of its own, is a question that is puzzling more than one person in the city just at present. So far, Adderman A. L. Gelinas has not made any statement in the present control. any statement in the present controversy. He is chairman of the commit tee in charge of the city ice and when municipal ice first became an issue in the city he was opposed to it.

Motorcyclist Carries Off Bulldog. "When they steal my dog, they start something," said Alderman Ray Comins Friday afternoon. His buildog, which is one of the fixtures in the alderman's place of business at the corner of Main and Railroad streets, went out for an airing late last Saturday night, waiting for his master to close up the store and go home. Some motorcyclists came along on their way to Manchester, this state, where they live, and one of them decided to give the dog a ride. He picked the dog up and placed him in the sidecar of the motorcycle. At Manchester the dog was allowed to

go its way. Aiderman Comins, when he found that his dog was gone; started an investigation, and from what he learned had reason to believe that some Manchester party was gulity of taking the dog. He conferred with Chief E. H. Richmond, the latter communicated with the Manchester authorities, and they found the dog in Manchester and held the pet for Aiderman Comins. The alderman would like to confer with the person who took the dog, for just a few minutes, in order that he might ease his mind and express to the Manchester motorcyclist just what his idea is relative to such conduct on the part of people who come to Willimantic and then deliberately steal property.

STRUCK BY NORWICH AUTO.

George E. Anderson's Runabout Bump ed by Manchester Car.

A touring car owned by-Louis Manchester of Norwich and driven by Jo-seph Bechard of that city, a chauffeur connected with the Imperial garage of Norwich, shortly before midnight Thursday ran into a runabout owned and driven by George K. Anderson of this city on the Brickton road just and driven by George K. Anderson of this city on the Bricktop road, just east of the Horseshoe bridge. Both cars were badly damaged, but no one was injured. In the Norwich car were three passengers, aside from the driver, and they gave the names of Gus Skelley, Harry Williams and Leslie Manchester of Norwich, the last named a son of the owner of the car. Mr. Anderson was coming to this city and he saw the touring car coming along. He steered his machine as far as he could to the right side of the road and slowed down because of the giaring lights on down because of the glaring lights on the approaching car. Although there was plenty of room in the highway, the Norwich car struck Mr. Anderson's car. After striking the local car, the Norwich machine struck a telephone pole, knocking it out of place by about three inches, and then plowed into a bank, budly damaging the front of the machine. Friday morning Louis Man-chester, husband of the woman who owns the Norwich car, came here to investigate the matter. Mr. Anderson retained a lawyer to look out for his interests in the case.

#### More Highway Work,

Two more contracts for road work in Maine have been swarded to the Ahern Construction company of this city. They already have a big job in that state on which they are working. The new jobs are at Elisworth and Herman. Both jobs amount to about three miles of highway, and the aggregate cost will be about \$20,000.

Repairing Lightning Damage.

The damage done the spire of St seph's church when lightning struck It a few weeks ago is to be repaired by the firm of Doyle & Murphy of this city. They have started to erect stag-ing for the work. This will be on three sides of the belfry and will extend 30 feet above the bottom of the belfry

Chief Richmond's Work Appreciated. H. J. Skiffington, immigration commissioner at Boston, Mass., has sent a letter of appreciation to Chief E. H. Richmond of the local police depart-ment for the good work done by the chief a short time ago, when he caught a Chinaman who had escaped from two immigration inspectors on a train here. The inspectors were very much pleased with what Chief Richmond did for them and apparently they reported the matter to the commissioner.

Troops Went Through City. Friday morning shortly after 6 clock two special trains passed through here carrying Troops A. B and C of the Massachusetts National guard, who were on their way home after taking part in the war manoeuvres at Tukana, Pa. There were five cars on the first train and eight on the

OBITUARY.

Michael Dwyer. After being ill for some time, Michael Dwyer, 63, died Friday afternoon at St.
Joseph's hospital. He had been suffering from a shock. Mr. Dwyer leaves
a sister, Mrs. John Carroll, of Waterbury.

FUNERALS.

William Callahan, At St. Joseph's church Friday morning funeral services were held at 9 o'clock for William Callahan. Rev. T. F. Bannon sang the requiem high mass. Burial was in St. Joseph's cemetery, the bearers being John Healey, John Jennings, Vincent Shea and Timothy

Curren. Miss Abbie A. Loomis.

At the home of Mrs. Henry Clapp in Hampton Friday morning at 10.30 funeral services for her cousin, Miss Abbie A. Loomis, were held. Rev. William M. Brown of Windham officiated, assisted by Rev. W. R. Stewart of Hampton. During the services hymnawere sung by the Hampton quartette. The body was taken to Westford for burial in the family lot. burial in the family lot.

WEDDING, WILLIE

Barber-Culpin.

Barber—Culpin.

Friday night Harrison Barber-and Miss Evelyn Culpin, both of this city, were married at St. Paul's Episcopal rectory by Rev. C. L. Adams. The young people were attended by William Barber, brother of the bridegroom, and Miss Grace Powell. After the ceremony, Mr. and Mrs. Barber left on their honeymoon. Mr. Barber left on their honeymoon. Mr. Barber is in the employ of the Central Vermont railroad as a trainman and both he and his wife have many friends here. wife have many friends here.

Study of the Paragraph. The greater part of the language period was devoted to the study of the paragraph as an important unit of composition. Miss Amy Gaines, who is in charge of the course, also gave instruction with regard to the best forms of business letters and the arrangement of telegrams, receipts, checks and bills. checks and bills.

With regard to the paragraph she said, "A good paragraph is composed of sentences which have unity of

thought. The main idea is expressed in a topic sentence. The subsidiary sentences express details. These details enlarge on the main idea. There may be a summary sentence in the paragraph. Each sentence should show some purpose."

Miss Gaines told the teachers how to est a paragraph for unity, and she gave devices for connecting sentences, She also showed how a paragraph may be developed from outlines prepared either by the teacher or by the pupils. Today Miss Gaines will talk about technical grammar. echnical grammar.

SECRETARY HINE-SPEAKS. Gives Instructive Lecture On Great

Educator, At Storrs Summer At Storrs Summer school, Secretary C. D. Hine of the State Board of Ed-ucation is conducting the course in history of education. Friday he re-

history of education. Friday he reviewed the work of Pestalozzi, Herbart and Froebel. He made many helpful comments about the principles advocated by these pioneers of modern education.

When speaking of Pestalozzi he said, "Many of Pestalozzi's notions of teaching children have survived. Pestalozzi introduced text books and fi-

teaching children have survived. Pes-talozzi introduced text books and il-iustrative material into the schools. He was one of the first to insist on regular attendance of children. One of his ideas was that only part of the day should be given over to instruc-tion, the part of the day when the pupils were in the most receptive mood. He substituted class instruction for individual instruction, an arrangement individual instruction, an arrangemen

individual instruction, an arrangement which is now found to be necessary in these days of crowded schools.

"In the penmanship work of Pestalozzi printed copy books were used instead of copy slips which were formerly made by the teachers for the individual pupils. Pestalozzi believed that reading and writing should be taught together. Other correlations were made whenever possible.

"He favored oral instruction by the teachers and whenever possible he

teachers and whenever possible wished this instruction to be I be made clearer by means of objects.

"Another great pedagogical principal of Pestalozzi was that examples should be studied before rules.
"He believed that corporal punishment should not be used for failure in Passing on to Herbart Mr. Hine said that Herbart had more direct influ-

ence on modern education that any He spoke of his doctrine of apperception or adaptation of the new ma-terial to the old. "This doctine sup-plemented Pestalozzi's pinciple of sense perception", said Mr. Hine ."The presentations or experiences which constitute the content of the mind are modifiable through the apperceptive process. Apperception depends upon interest. The process of instruction follows the nature of the minds activity and apperceptive or assimilative character of the mind's growth. Mr. Hine said that Herbart's influence on

education was especially strong in the education was especially strong in the United States,
In speaking of Froebel Mr. Hine said,
"His influence on the education of the younger children is very strong. He believed in education through modes of expression. He gave much attention to expression through gesture, voice, speech, music, making things, modeling nainting, drawing and writmodeling, painting, drawing and writ-

At Model School.

At Miss Baker's model school there was a lesson about insects taught by A. J. Brundage. The children apparently enjoyed the lesson which was about beneficial and destructive varities of insects.

ties of insects.

An interesting fact which was brought out is that \$1,600,000,000 worth of produce is destroyed annually by insects. Mr. Brundage spoke of ways of destroying these harmful insects.

He also mentioned some beneficial insects, among the number being the slik worm which annually produces \$200,000,000 worth of silk and the honey bee which in America alone produces \$20,000,000 worth of honey. Mr. Brundage said that the lady beetle is another beneficial insect for it destroys the plant lice which are so injurious to leaves. He told the children how the bumble bee helps to pollenize apple and pear trees. lenize apple and pear trees.

To help sustain the interest in the subject of insects Mr. Brundage used charts showing the forms of different bugs, beetles and butterfiles. He also distributed pamphlets for home

PLAINFIELD

Independents to Play Jewett City-Mrs. Fred Brown Coming from Eng-

A load of hay belonging to Charles Hopkins tipped over Thursday evening just above the New London and Wor-cester track on the Packerville road. The driver escaped without injury. Will Play Jewett City.

The Independents will clash with Jewett City on the local diamond this afternoon. Judging from the present pace the Independents are hitting, it will be a terrible task for our southerly neighbors to return home with the bacon. McFarland, who has been avanging not more than the bacon for the companying not more than the second se eraging not more than three to four hits a game all season, will again be moundsman, and Vandele will land the Coming from England.

Coming from England.

Fred Brown and John Taylor are in New York to meet Mr. Brown's wife, who is expected to arrive in New York from England this morning.

Kerin J, Nolan and Miss Mary Nolan of Long Branch, N. J., are in Plainfield visiting relatives.

Miss Thursa Taylor is spending a few days with her grandmother in New Bedford, Mass.

Miss Gertrude Platt of Norwich is the guest of Plainfield friends.

The Naughty Trumpheter. The swearing habits of our soldiers annoyed Lord Wolseley, who became president of a society for the suppression of improper language. One day when he was inspecting an Irish gar-rison, commanded by an officer re-nowned for his purple flowers of sueech the trumpheter, ordered to sound the "Charge," sounded the "Retreat" in-"Charge," sounded the "Retreat" in-stead. The officer's mouth had opened to volley forth appropriate denuncia-tions when he caught Wolseley's eyes fixed icily upon him. He hesitated, chocked, stared wildly around, then bellowed, "Oh, you naughty, naughty trumpeter!"—London Chronicle,

Pertugal's President. At the age of fourteen the new President of Portugal, Senhor The-ophilo Braga, was attending school by day and working in a printing office by night, his home lessons being done in the hours robbed from sleep. Still he found leisure for rhyming, and two months before his sixteenth birthday, the schoolboy-compositor published "Folhas Verdes," a volume now highly prized by Portuguese book collectors.

paign.-Los Angeles Times.

#### BALTIC

Old Home Day Project Booming-Exact Date Not Decided Upon-Merchants Heading the Movement.

All doubts as to the sanity of those who suggested Baltie having an Oid Home day having been dispelled—not without hord work, the business men have been going ahead with their plans. One of the most important changes made is in the date, as it was thought Labor day was not the best day to have it on, as there is a fair in Norwich that day, and the people would naturally be out of town visiting. The Saturday before Labor day would naturally be out of town visiting. The Saturday before Labor day
was suggested, but it was found that
there will be a lawn party given by
St. Marys' church on that date, so the
exact date on which Old Home day will
be held has not yet been decided upon.
However, there has been no delay in
preparation for the eyent, and a skeleton outline of the programme to be
followed has been drafted. It consists
of a schedule of athletic events, a
clambake, a picnic at the Depot Hill
grove in the evening, and other attracgrove in the evening, and other attrac-tions. The committee in charge has noticed with satisfaction the attitude of Piainfield and other towns in which there are former Baltic residents and feels confident that with the co-opera-tion of these people and the local citi-zens the scheme will be successful. They figure that the cost will be trifing considering the nature of the event, and all they ask for is that everybody

help them to make it a success.

The following merchants have to date interested themselves in the affair: Charles F. Charon, I. L. Buteau, W. E. Rocheleau, Thomas J. Buke, Albert G. Cote, John B. Charon, Joseph Dactor, John Smyrnelis, Arthur P. Cote and J. W. Lavallie & Co.

Local Brevities.

An automobile party composed of Beatty, George, John and Charles Clay-ton, all of Montreal, were guests of Mr. Collins' parents, Mr. and Mrs. A. W. Collins, recently. When they return to Montreal they will have covered 2,000

There are unclaimed letters at the costoffice for Baptist Yamlin and J. M. Westman. W. E. Rocheleau was a visitor in Plainfield Friday.

Leo Fliatreault was the guest of

Plainfield friends Friday.

The Other German Kings. Of the four German kings, the Kaiser (king of Prussia) is the only one actively assisting in the field, the kings of Bavaria, Wurtemberg and Saxany remaining at home. Quite a number of princes and dukes have been wounded; one is a prisoner of the been wounded. war—the prince of Hohenzollern-Sig-maringen, who was on the Emden; and among the killed are at least six princes—two of Lippe, two of Mein-ingen, and one each of Waldeck, Reuss, and Hesse.-Pall Mall Gazette.

Handy Thing to Have.

John Bull's folks believe in exalt-ing the American flag when they feel

that is the way to keep them out of a bad scrape.—Knoxville Journal and Tribune.

## Summer's Touchy Appetite

Calls for food that is easy to digest and nourishing but not over-heating to the blood.

# Grape-Nuts

-the meat of wheat and barley-meets this requirement and has a most delicious, nut-like flavour,

But most important,

Grape-Nuts is full of Nature's richest nourishment that builds nerve, muscle, bone and brain in a way that appeals to thinking people everywhere and has made the food famous.

Grape-Nuts is long-baked, partially pre-digested and economical-requires no cooking-always ready to eat direct from package.

"There's a Reason" for Grape-Nuts

Sold by Grocers everywhere,
